

K-LOVE is a very important alternative from secular music to those who choose to listen. With no commercials, we know what we hear is good and true. As a Christian family we want our family to be able to listen to what we support.

K-LOVE broadcasts prayer requests and community/city needs so area people can help. They also broadcast concerts, seminars and other items of interest that are not in our local area.

The Texarkana area listeners usually meets the amount of donations needed to keep K-LOVE available here. When communities can provide that kind of support, it is in the public interest to not let LPFM take priority over K-LOVE.

Thanks.
